Plaintiffs,

v.

GREGORY W. ABBOTT, et al.,

Defendants.

Civil Action No. 5:21-cv-844 (XR)
(consolidated cases)

UNITED STATES' OBJECTIONS TO STATE DEFENDANTS' EXHIBIT LIST

The United States hereby submits objections to State Defendants' exhibits. The United States utilized the following code in designating objections:

- **A:** Authenticity. The document is unsigned, undated, or has unidentified handwriting, or there is insufficient evidence to support a finding that the item is what the proponent claims it is. *See* Fed. R. Evid. 901 & 902.
- **H:** Hearsay. The document constitutes or contains hearsay, and no exception applies. *See* Fed. R. Evid. 801 & 802. With respect to expert reports, the United States has agreed to withdraw the objection so long as the expert testifies live or by trial deposition and adopts the statements in the report while under oath and subject to cross examination. With respect to other materials, the United States objects only insofar as the exhibit is offered for the truth of the matter asserted and not for the fact of a prior statement.
- **P:** Unduly Prejudicial. Any probative value is substantially outweighed by the danger of prejudice, delay, or needless presentation of cumulative evidence. *See* Fed. R. Evid. 403.
- **R:** Relevance. Not relevant to any issue to be decided. *See* Fed. R. Evid. 401 & 402.

The United States has identified where its exhibit list overlaps with that of State Defendants. Where the United States and State Defendants list documents that appear to be identical but were produced with distinct Bates numbers, the United States has provided the Bates range of its exhibit in the Notes column below. The United States has also listed exhibits that identify substantially similar documents but that are a non-exact match with a ~.
